ABOUT FRACAS!

Fracas! is an improv festival with the goal of bringing young creative performers together from across the country to celebrate improv. It's something we love. It's something we share. Here. Now. What you witness here will never be witnessed again by human eyes. DVDs of the performances will be sold in the back at the end of the festival.

ABOUT SECOND NATURE

Ten people believing in the spread of the improvisational word formed Second Nature Improv in 2002. We were persecuted by a man named John Dardenne, who has since seen God and changed his name to Paul. We hope to continue pushing the envelope and making laughter.

THE ALL-STAR SHOW

At the end of each troupe's performance, we will be passing around ballots. On these, you will vote for the person you thought was the best improviser. Saturday night, for our grande finale, we will put the best of each troupe together to break improv boundaries like it is our job.
